EN Attention! All flexible hose couplings are designed with a sealant.

DE Achtung! Alle flexiblen Schlauchkupplungen werden mit einem dichtmittel ausgeführt.

RHS

LHS

EN Mark the connections to mount everything correctly

DE Markieren Sie die Anschlüsse, um alles dann korrekt zu montieren

EN Attention! Do not cut the wires, as they are very close to each other.

DE Achtung! Zerschneiden Sie nicht die Drähte, da sie sehr nah zueinander liegen.

EN

Connect hose pipes to the rear cover using collars 60-80 (pos. **24**) and cut the excessive part. Make sure there is no rubbing sharp edges against the hose pipes. Where required, secure the hose pipes using hose ties (pos. **25**). Install all plastic parts into position in reverse order.

DE

Verbinden sie die schläuche mit den klemmen 60-80 an den hinteren deckel (pos. **24**) schneiden sie den überschuss ab. Stellen sie sicher, daß die schläuche keine scharfen kanten berühren. Befestigen sie gegebenenfalls die schläuche mit den schellen (pos. **25**).

Montieren sie nun alle kunststoffteile in umgekehrter reihenfolge.

EN

Attach temperature sensor connectors, fan connector and fan breather connector. For complete adjustment of the overhang by inclination angle, extend wires when necessary pos. **27, 28, 29**.

DE

Schließen sie die steckverbindungen des temperatursensors, den stecker des ventilators und des entlüfters an. Für die vollständige einstellung der austragung je nach dem anstellungswinkel verlängern sie soweit erforderlich kabel an der positionen **27, 28, 29**.

EN

Provide strong fastening of all branch pipes by zap straps (pos. **25**) to the frame and between each other in a way that they do not touch sharp edges under the luggage rack platform. As branch pipes are movable when being higher than the luggage rack platform due to adjustment of the relocation kit by inclination angle, please prevent touching of branch pipes and the hood and the luggage rack platform in order not to allow their abrasion.

DE

Befestigen sie alle stützen mit Hilfe der spannschellen (position **25**) sicher zum gestell und zueinander so, dass sie die scharfen ränder unterhalb dem gepäckraum nicht berühren. Da die stützen über dem gepäckraum wegen der einstellung der austragung je nach dem anstellungswinkel beweglich sind, müssen sie mit der haube und dem gepäckraum nicht berühren, um deren scheuern zu vermeiden.

EN

Install the radiator relocation kit in the highest lifted position, add antifreeze liquid and bleed the system.

DE

Stellen sie die austragung des Kühlers in die höchstzulässige angehobene position ein, gießen sie frostschutzmittel ein und entlüften sie das system.
